

# ENGAGEMENT RING BUYERS GUIDE

Congratulations! You have found the love of your life and want to propose, but do you have the perfect engagement ring? If you are struggling to find one or are unsure of how the whole process works, you have come to the right place.

Below we have put together a step by step guide on the best way to go about buying an engagement ring and the journey you would go through if we were lucky enough to become your jeweller.

## Step 1.

Do some research

You're already doing step one by reading this guide so good job! To further your research it's important to know what style of jewellery your loved one already owns and likes, ask their best friend, sibling, parent as they can be your best resource. Alternatively, if the discussion is out in the open, browse through Pinterest and google together to get a clue, and don't worry the proposal will still be a wonderful surprise.

## Step 2.

Choose Your Diamond

This is the MOST IMPORTANT step when creating a stunning engagement ring. Your diamond/s are the focal point of the ring and hold the most value, so whether you choose a single solitaire, trilogy or halo they all need to be of great quality and brilliance.

In your first consultation, our diamond specialists will sit with you and discuss all of your options. Being in the diamond industry for over 20 years means we have all of the knowledge and experience to assist you in capturing your lovers heart.

From there our specialists will hand select 3 diamonds that coincide with your desires and YOU will have the ability to view your options in person, see their sparkle with your own eyes and select the perfect one. YOU make the final decision because only YOU know what your love will adore.

This is a process that is unique to our store and you will not receive such a personal and intimate experience anywhere else.

## Step 3

Designing your ring is where we get creative. Now that you have a perfect diamond, you need to respect its brilliance by placing it in a beautiful setting. This is where Starfire's Director Shweta can put all of your ideas onto paper so you may have a visual representation of what your ring will look like.

Even if you have no clue what style of ring your partner will like, Shweta can point you in the right direction by giving design suggestions and ideas based on the diamond you have selected. The main factor that we consider is how we can showcase your diamonds sparkle, the last thing you want is your diamonds brilliance dimmed just due to the setting that it's in.

Once the design has been finalised and you have approved it we then send it off to our jeweller who will turn your dream ring into a reality (this process usually takes around 4 weeks).

## Step 4

Now that our talented jeweller has completed your ring, it's time to collect it! Upon arriving to our diamond showroom, you will receive your:

- Beautiful Custom-Made Diamond Engagement Ring
- Your Diamond GIA certificate
- Starfire's Certificate of Authenticity
- Starfire Diamond Jewellery box
- Blue love heart proposal box or small velvet pouch depending on how you wish to propose

We also love to capture the moment that you collect your engagement ring, so don't be surprised if we ask you for a photo!
